RI TRANSPARENCY REPORT

2019

ISATIS Capital

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2019 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

OO 01.2

Additional information. [Optional]

ISATIS Capital, founded in 2013, is an independent private company based in France. It was formed thanks to the spin-off of the private equity activity of BNP Paribas. ISATIS Capital is owned by its employees. ISATIS Capital has developed 3 types of funds. First range called "fonds fiscaux" is made of tax-incentivised funds regulated by the French regulation authority. Second range is made of a fund specifically designed for life insurance contracts. Finally, the third range is composed of funds aimed at institutional investors.

Other investment strategy, specify (2)	<input type="radio"/> >50% <input type="radio"/> 10-50% <input type="radio"/> <10% <input checked="" type="radio"/> 0%
Total 100%	

To-day, ISATIS Capital only invests in growth capital operations. However, we can carry out some mixed operations when some historical shareholders wish to sell their shares. In those case, the level of the debt leverage should preserve the growth of the company.

SG 01.3

Indicate if the investment policy covers any of the following

- Your organisation's definition of ESG and/or responsible investment and it's relation to investments
- Your investment objectives that take ESG factors/real economy influence into account
- Time horizon of your investment
- Governance structure of organisational ESG responsibilities
- ESG incorporation approaches
- Active ownership approaches
- Reporting
- Climate change
- Understanding and incorporating client / beneficiary sustainability preferences
- Other RI considerations, specify (1)
- Other RI considerations, specify (2)

SG 01.4

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

ISATIS Capital is a specialist in growth financing in France and specifically invests in growing, profitable, innovative and exporting SMEs. Indeed, by financing the real economy, we contribute to sustainable value creation socially, environmentally and financially. Our investment philosophy is based on the conviction that we cannot ignore the ESG issues that are essential in creating sustainable value and performance for the companies in which we invest. Furthermore, our objective is to offer our institutional clients high-performance, high-quality investment products and avoid any reputational risks related to these investments.

To do this, we consider the PRI's principles as a roadmap and we have formalized an "ESG Policy" with indicators encompassing the environment, the social and the governance. A "Charter ESG" has been published on our website.

- The integration of ESG is important from the beginning to the exit of the investment process (First contact, Due diligence, follow up during the investment, measurement of the progress)
- Exclusion of sectors which have negative environmental and healthy impacts on people and planet
- Transparency: Reporting on ESG issues about our investments on a yearly basis
- Support role of ISATIS Capital with the management of the companies to improve their CSR.

No

SG 03	Mandatory	Public	Core Assessed	General
--------------	------------------	---------------	----------------------	----------------

SG 03.1 Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process.

- Yes

SG 03.2 Describe your policy on managing potential conflicts of interest in the investment process.

The conflict of interest policy specifies two main principles:

1. ISATIS Capital authorized itself, depending on the conflict of interest situations to:
 - carry out the operation to the extent that the organisation appropriately manages the potential conflict of interest situation.
 - inform the client in the case that some conflicts of interest may remain and provide necessary document to the client on the origin and nature of the conflicts of interest.
2. ISATIS Capital has set up an internal organisation to:
 - prevent emergence of conflict of interest by:
 - implementation of an internal control system
 - separation of functions that may generate potential conflicts of interest

- ensure that the investment product is in line with the client's expectations and with what ISATIS Capital has presented.
- prohibition of any personal financial transaction by the employees which would be in breach with the rules set up by ISATIS Capital. Co-Investment by employees is prohibited.

The prevention of conflicts of interest is compiled through a set of documents, procedures and control: code of Ethics, operating charter, mapping of conflict of interest, conflict of interest management policy, procedure for preventing and managing conflict of interest,

No

Objectives and strategies

SG 05	Mandatory	Public	Gateway/Core Assessed	General
-------	-----------	--------	-----------------------	---------

SG 05.1 Indicate if and how frequently your organisation sets and reviews objectives for its responsible investment activities.

- Quarterly or more frequently
- Biannually
- Annually
- Less frequently than annually
- Ad-hoc basis
- It is not set/reviewed

Governance and human resources

SG 07	Mandatory	Public	Core Assessed	General
-------	-----------	--------	---------------	---------

SG 07.1 Indicate the internal and/or external roles used by your organisation, and indicate for each whether they have oversight and/or implementation responsibilities for responsible investment.

Roles

- Board members or trustees
 - Oversight/accountability for responsible investment
 - Implementation of responsible investment
 - No oversight/accountability or implementation responsibility for responsible investment
- Internal Roles (triggers other options)

Select from the below internal roles

- Chief Executive Officer (CEO), Chief Investment Officer (CIO), Chief Operating Officer (COO), Investment Committee
 - Oversight/accountability for responsible investment
 - Implementation of responsible investment
 - No oversight/accountability or implementation responsibility for responsible investment
- Other Chief-level staff or head of department, specify
Business Development and Strategy Director.
 - Oversight/accountability for responsible investment
 - Implementation of responsible investment
 - No oversight/accountability or implementation responsibility for responsible investment
- Portfolio managers
 - Oversight/accountability for responsible investment
 - Implementation of responsible investment
 - No oversight/accountability or implementation responsibility for responsible investment
- Investment analysts
 - Oversight/accountability for responsible investment
 - Implementation of responsible investment
 - No oversight/accountability or implementation responsibility for responsible investment
- Dedicated responsible investment staff
- Investor relations
- Other role, specify (1)
- Other role, specify (2)
- External managers or service providers
 - Oversight/accountability for responsible investment
 - Implementation of responsible investment
 - No oversight/accountability or implementation responsibility for responsible investment

SG 07.2

For the roles for which you have RI oversight/accountability or implementation responsibilities, indicate how you execute these responsibilities.

The **CEO** leads the investment committees for the new investments and the monitoring of the existent participations. His role is to promote and ensure that the incorporation of ESG is done during the Due Diligences/follow-up by the PM and analysts. He has the decision not to invest in company whether the risks are too important and no way to resolve them in the future. This case never happened.

The **Head of Business Development and Strategy is the contact of the institutional clients** and responsible of the respect of the requests of clients about the management of the mandates. As such, he has specifically been the champion of the ESG project inside ISATIS Capital. However, he has delegated the supervisory of the implementation to an external consultant with whom, he has regular follow-up points on the implementation and helps the consultant to resolve some problems when they arise.

The **portfolio managers are the direct contact of the companies** in which they invest or aim to invest. Moreover, they have a key role to play within the board meetings to push the management for an implementation of the CSR. During the phase of the implementation of ESG within ISATIS Capital, they were in charge to send the ESG questionnaires to their participations and to communicate on the ESG Strategy of ISATIS. Once the implementation has been made, they are responsible of the analysis the ESG areas and they should identify the points which could represent some risks for the performance of the investment funds and/or that are not in line with the requests for the clients. During this phase, the external consultant helps them. They are in charge to communicate and monitor any incident on ESG.

The **analysts are the support of the portfolio managers** and in charge of the analysis of the responses to the ESG questionnaires and of exchanging with the companies when they need more clarification. Their responsibilities include incorporating in the investment notes or follow-up notes any add-value information regarding the ESG areas. This allows the members of the Investment Committees get all relevant information before making decision and allows the portfolio managers to lead discussion about ESG within the board meetings.

The **external consultant** has been recruited by ISATIS Capital at the last quarter of 2017. The objective of the Consultant was to build the ESG incorporation process of ISATIS Capital and help ISATIS Capital to sign to the PRI principles (ESG Policy, ESG questionnaires, ESG swot and analysis, training of the portfolio managers and analysts, ESG provision in shareholder agreement). The consultant supervises the incorporation and should arise any failures about the respect of the ESG incorporation or of PRI principles with the CEO and Development and Strategy Director.

SG 07.3	Indicate the number of dedicated responsible investment staff your organisation has.
----------------	--

Number

6

SG 07.4	Additional information. [Optional]
----------------	------------------------------------

The entire management team is involved in the implementation of the ESG incorporation process. We believe that the best way to successfully support companies on the path to progress in taking ESG issues into account is to involve the Investment Director (portfolio manager) , who is the main contact in this area with the companies he/she follows. The pedagogical aspect is strong and based on a constructive and trustful relationship with the leaders. In addition, we believe it is essential that the ESG integration process be designed and implemented with investment managers to ensure that the formalization is relevant to our specific universe of SMEs. The number 6 above is the number of the investment director in 2018 (4), the CEO and the Development and Strategy Director.

Provide a brief commentary on the level of your organisation's involvement in the initiative.
[Optional]

ISATIS Capital is at the beginning of ESG incorporation in the decision-making process. 2018 was the year of building of the ESG Policy. During this phase, the investment team was focus on:

- integrating the ESG dimension in the investment process
- understanding, thanks to training, the importance of the ESG strategy for the interest of the clients, the reputation of ISATIS and general interest (Save the planet)

The work made by the Investment team during this phase has not allowed enough time to contribute effectively to PRI working group in 2018.

SG 10.1

Indicate if your organisation promotes responsible investment, independently of collaborative initiatives.

- Yes
- No

Outsourcing to fiduciary managers and investment consultants

SG 12

Mandatory

Public

Core Assessed

PRI 4

New selection options have been added to this indicator. Please review your prefilled responses carefully.

SG 12.1

Indicate whether your organisation uses investment consultants.

- Yes, we use investment consultants
- No, we do not use investment consultants.

ESG issues in asset allocation

SG 13	Mandatory	Public	Descriptive	PRI 1
-------	-----------	--------	-------------	-------

SG 13.1 Indicate whether the organisation undertakes scenario analysis and/or modelling and provide a description of the scenario analysis (by asset class, sector, strategic asset allocation, etc.).

- Yes, to assess future ESG factors
- Yes, to assess future climate-related risks and opportunities
- No, not to assess future ESG/climate-related issues

SG 13.3 Additional information. [OPTIONAL]

In our approach, we do not invest in sectors which have a high level of negative impact by carbon emission, air/ground/water pollution.

Communication

SG 19	Mandatory	Public	Core Assessed	PRI 2, 6
-------	-----------	--------	---------------	----------

SG 19.1 Indicate whether your organisation typically discloses asset class specific information proactively. Select the frequency of the disclosure to clients/beneficiaries and the public, and provide a URL to the public information.

Caution! The order in which asset classes are presented below has been updated in the online tool to match the Reporting Framework overview.

If you are transferring data from an offline document, please check your response carefully.

Private equity

Do you disclose?

- We do not disclose to either clients/beneficiaries or the public.
- We disclose to clients/beneficiaries only.
- We disclose to the public

The information disclosed to clients/beneficiaries is the same

- Yes
- No

Overview

PE 02	Mandatory	Public	Core Assessed	PRI 2
-------	-----------	--------	---------------	-------

PE 02.1 Indicate whether your organisation's investment activities are guided by a responsible investment policy / follow responsible investment guidelines.

- Our investment activities are guided by a responsible investment policy

PE 02.2 Describe how your organisation outlines expectations on staff and portfolio companies' approach towards ESG issues in investment activities.

Pre-investment process:

ISATIS Capital expects its investment managers (PM) and analysts to assess at the outset of discussions with candidate companies the risks/opportunities, strengths and weaknesses of the company in addressing ESG issues. A specific due diligence questionnaire has been created to this end. A risk scale must be established in the investment notes based on management's knowledge and sensitivity to ESG issues, the degree of management acceptance to progress and the level of transparency. Those different points should help the investment committees to take a decision.

Post-investment process:

Once the investment is done, the portfolio managers should arise the ESG topics regularly during the board meeting.

A follow-up should be made once a year where the companies should provide ESG KPIs on E and S and the analyst should report an analysis on the ESG trend of the companies.

In case of ESG incident, ISATIS Capital expects its portfolio managers to react, alert and help the company to solve the problem.

- Our investment activities are not guided by a responsible investment policy
- We do not have a responsible investment policy

Fundraising of private equity funds

PE 03	Mandatory	Public	Core Assessed	PRI 1,4,6
-------	-----------	--------	---------------	-----------

PE 03.1 Indicate if your most recent fund placement documents (private placement memorandums (PPM) or similar) refer to responsible investment.

- Yes
- No
- Not applicable as our organisation does not fundraise

Pre-investment (selection)

PE 05	Mandatory	Public	Gateway	PRI 1
-------	-----------	--------	---------	-------

PE 05.1

During due-diligence indicate if your organisation typically incorporates ESG issues when selecting private equity investments.

Yes

PE 05.2

Describe your organisation's approach to incorporating ESG issues in private equity investment selection.

The role of the taking into account of ESG factors is important from the very beginning of the investment decision- process. Indeed, before making a long-term commitment with a company, it is important that we are comfortable with ESG risks. This begins with the choice of sectors with relatively low environmental externalities (NICTs (New Information and Communication Technologies), Business Services, Health, Advanced Industry).

The fact that the company that we are analysing has no CSR policy concerning the ESG issues is not a factor in the abandonment of our investment. Nevertheless, before the final investment decision is made, we validate two essential points:

- The business model of the analysed company must not be based on social or environmental risk taking
- If the managers are open to improve their ESG practices and discuss with ISATIS an action plan for the future development.

A specific Due diligence questionnaire is submitted to the new company covering the 3 pillars ESG mostly focused on qualitative approach. The objective of this questionnaire is to measure the knowledge of the managers on their ESG issues/challenges and how ISATIS Capital will help and support the company to improve their practices in terms of ESG in the future.

No

PE 06

Mandatory

Public

Core Assessed

PRI 1,3

PE 06.1

Indicate what type of ESG information your organisation typically considers during your private equity investment selection process.

- Raw data from target company
- Benchmarks against other companies
- Sector level data/benchmarks
- Country level data/benchmarks
- Reporting standards, industry codes and certifications
- International initiatives, declarations or standards
- Engagements with stakeholders (e.g. customers and suppliers)
- Advice from external resources
- Other, specify

The most important thing is to ensure that the managers are open to improving their practices in the future with the help of ISATIS Capital.

- We do not track this information

PE 06.2

Describe how this information is reported to, considered and documented by the Investment Committee or similar.

In 2019, the ESG Incorporation policy shall be done for all new investments as follows: the information is reported in the investment note on a specific page dedicated on ESG issues with a swot and comments about the degree of risks and the knowledge and the openness of the managers on these topics, what actions ISATIS Capital have to do to help the company to improve the practices in terms of CSR.

The managers have to accept in the shareholder agreement to provide each year the KPIs on E & S to allow the measurement of the trends. ISATIS Capital expects the "best effort", aware that its universe of investments is composed of very small companies.

Post-investment (monitoring)

PE 09

Mandatory

Public

Gateway/Core Assessed

PRI 2

PE 09.1

Indicate whether your organisation incorporates ESG issues in investment monitoring of portfolio companies.

Yes

PE 09.2

Indicate the proportion of portfolio companies where your organisation included ESG performance in investment monitoring during the reporting year.

- >90% of portfolio companies
- 51-90% of portfolio companies
- 10-50% of portfolio companies
- <10% of portfolio companies

(in terms of total number of portfolio companies)

PE 09.3

Indicate ESG issues for which your organisation typically sets and monitors targets (KPIs or similar) and provide examples per issue.

ESG issues

- Environmental
- Social
- Governance
- We do not set and/or monitor against targets

No

PE 09.4

Additional information. [Optional]

In 2018, we began to collect the KPIs of our portfolio companies concerning the year 2017. The number of companies which provided the KPIs represent less than 50%. Our objective, in 2019, is to reach 100% of companies which provide KPIs concerning the years 2017 and 2018.

The target of our investment universe is small companies. Few of them have a formalized CSR policy. The first challenge for ISATIS Capital is to obtain that the companies measure their impact on E & S through their energy and water consumption, the management of the wastes, the human capital management.

PE 10	Mandatory	Public	Core Assessed	PRI 2
-------	-----------	--------	---------------	-------

PE 10.1 Indicate if your organisation tracks the proportion of your portfolio companies that have an ESG/sustainability-related policy (or similar guidelines).

Yes

PE 10.2 Indicate what percentage of your portfolio companies has an ESG/sustainability policy (or similar guidelines).

- >90% of portfolio companies
- 51-90% of portfolio companies
- 10-50% of portfolio companies
- <10% of portfolio companies
- 0% of portfolio companies

(in terms of total number of portfolio companies)

No

PE 10.3 Additional information. [Optional]

The small size of the companies (between 5 and 70 m€ turnover) which compose our portfolios explain the low percentage of companies which have a formalized CSR. Please see ESG report of ISATIS Capital .
